

UROLOGIST

McMaster University and Hamilton Health Sciences are seeking an academic urologist. Hamilton Health Sciences serves a catchment area of more than 1.4 million residents providing comprehensive care across the sites of Hamilton Health Sciences. The Urology Division provides tertiary and quaternary level care to patients from other regions of the province and plays an essential role in the support of regional programs including gynecological oncology, colorectal surgery and surgical oncology, renal disease and transplantation. The Urology Division together with the Department of Surgery, McMaster University is a fully accredited Royal College of Physicians and Surgeons of Canada training program in Urology with full involvement in undergraduate, post-graduate and continuing medical education programs.

The successful candidate will be based at the Juravinski Hospital and Cancer Centre and will be expected to demonstrate experience and training in contemporary management of urological oncology appropriate for an academic referral centre. The surgeon will be expected to perform complex urological cases and laparoscopic surgery, and participate in urological oncology and pelvic oncology. In addition the successful applicant's clinical skill set must include facility with general urology for at least the purposes of regional call duties. He/she will be expected to show evidence of interpersonal and collaborative skills and initiative to further advance the clinical and academic productivity of the regional urology service. A full time appointment at the appropriate level in the Department of Surgery, Faculty of Health Sciences, McMaster University is required and will be available to the successful applicant. A commitment and demonstrated interest in surgical education at all levels is essential, as well as active participation in research programs and academic initiatives of the Urology Service and Division, specifically in clinical trials and evidence based urology.

Applicants must have a Fellowship in Urology, Certification from the Royal College of Physicians and Surgeons of Canada, and be eligible for licensure in the Province of Ontario. Preference will be given to applicants with interest in clinical trials in urology and evidence based surgery. Previous experience in clinical trials or formal education in clinical epidemiology, is preferred. In accordance with Canada's immigration policy, this advertisement is directed to Canadian Citizens and Permanent Residents of Canada. McMaster University and Hamilton Health Sciences are committed to employment equity and encourage applications from all qualified candidates including women, members of visible minorities, Aboriginal peoples, members of sexual minorities and persons with disabilities.

Applications must include an up-to-date curriculum vitae, and a description of previous academic experience, as well as of specialty training. Applications must be received by January 31, 2013. Applications are to be submitted to

Dr. Susan Reid, Professor and Chair,
