

Academic Urologist

Department of Urology, Queen's University

Kingston, Ontario

The Department of Urology, Queen's University, is seeking a qualified Urologist with fellowship training in renal transplantation for a geographically full-time (GFT) position with an anticipated start date of March, 2016. Applicants must be eligible for registration with the College of Physicians and Surgeons of Ontario and must be certified by the Royal College of Physicians and Surgeons of Canada in Urology. Applicants must exhibit strong potential for innovative and scholarly research and must demonstrate strong potential for outstanding teaching contributions. Preference will be given to those applicants whose background and training is in alignment with scholarly strengths in the Queen's academic community. The successful applicant will be expected to contribute to the general urological care of patients in the region and to the educational and scholarly initiatives within the department.

The Department of Urology at Queen's University has six members, all of whom have active clinical practices and extensive involvement in urological research and education. Research foci include urological oncology, inflammatory disease of the genito-urinary tract, and voiding dysfunction including incontinence. There is an active clinical research program based at the Centre for Applied Urological Research. There is a fully accredited residency program and department members are expected to participate in the undergraduate and postgraduate medical education programs at Queen's. The clinical program is based at Kingston General Hospital and Hotel Dieu Hospital and provides secondary referral services for Kingston, Frontenac, and Lennox and Addington as well as tertiary referral services for Southeastern Ontario.

Queen's University is located in historic Kingston, on the shores of Lake Ontario. With a population of 125,000, Kingston offers a wonderful mix of year-round recreational, cultural and academic opportunities.

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. Queen's University is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, aboriginal people, persons with disabilities, and persons of any sexual orientation or gender identity.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens/permanent residents of Canada. Applicants need not identify their country of origin; however, all applications must include one of the following statements: I am a Canadian citizen/permanent resident of Canada; OR, I am not a Canadian citizen/permanent resident of Canada. Applications that do not include this information will be deemed incomplete.

Review of applications will commence on January 15, 2015 and will continue until the position is filled. Support to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs, will be provided in the recruitment processes. If you require accommodation during the interview process, please contact Dr. Siemens below.

Please direct applications including curriculum vitae, and the names and addresses of three referees, in confidence, to:
