

## FUNCTIONAL AND RECONSTRUCTIVE UROLOGIST

The Department of Surgery, Alberta Health Services-Calgary Zone and the University of Calgary invite applications for a urologist with expertise in functional and reconstructive urology, and an academic interest in education. The position will be based at the Southern Alberta Institute of Urology at Rockyview General Hospital, but may transition to an alternate primary site.

Qualifications include an MD, a Fellowship in the Royal College of Physicians and Surgeons of Canada in Urology with additional fellowship training in Functional and Reconstructive Urology. This is a 0.8 FTE clinical position with resources allocated appropriately. An additional 0.2 FTE is to be dedicated to educational activity within the Department of Surgery, Faculty of Medicine. The successful applicant will be required to complete the Master Teacher Program at the University of Calgary within two years of practice, or have similar qualifications. Candidate must be eligible for licensure in the province of Alberta.

The successful candidate will become a member of the Section of Urology and provide urological care in the Calgary area, including clinical activities at Rockyview Hospital and the South Health Campus. Teaching at the undergraduate and post-graduate level will be required. Committee duties will be expected as the need arises. Successful applicants will take call according to the site and regional policies.

The successful individual will be expected to have a clinical appointment with the University of Calgary, Cumming School of Medicine, and Department of Surgery and to participate in medical student and resident teaching.

In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada. Alberta Health Services and the University of Calgary are committed to employment equity.

Please submit a letter of application, curriculum vitae and three letters of reference by May 6, 2016 to:
