

a place of mind

BC Children's Hospital (BCCH) cares for the province's most acutely ill or injured children and youth and pediatric patients with chronic medical disorders, and provides developmental and rehabilitation services to children and youth throughout BC. Sunny Hill Health Centre for Children (SHHC), a leading provincial facility offering specialized services to children and youth with developmental disabilities from birth to age 19, works collaboratively with BCCH. SHHC focuses on the child and their family while supporting health care professionals in their community. BCCH also operates a wide number of specialized health programs, is a leading acute care teaching facility, and conducts research to advance health and care through the BCCH Research Institute and in partnership with the University of British Columbia.

BCCH and **BCWH** are programs of the **Provincial Health Services Authority (PHSA)** which plans, manages and evaluates specialty and province-wide health care services across BC. PHSA embodies values that reflect a commitment to excellence. These include:

Respect people • Be compassionate • Dare to innovate • Cultivate partnerships • Serve with purpose

The **University of British Columbia (UBC)** is Canada's third largest university and consistently ranks among the 40 best universities in the world. Primarily situated in Vancouver, UBC is a research-intensive university and has an economic impact of \$4 billion to the provincial economy.

Pediatric Urologist

Regular Full Time
BC Children's Hospital
Vancouver, BC Canada

British Columbia Children's Hospital and the University of British Columbia are seeking a full-time Pediatric Urologist. B.C. Children's Hospital serves as the major referral centre for infants, children and youth throughout the province of B.C. and the Yukon (population 4.8 million), and provides comprehensive, family-centered, interdisciplinary diagnosis and treatment for congenital and acquired urological conditions, traumatic injuries, cancer, renal replacement therapy and other complex urological conditions of childhood.

The successful candidate will join three full time pediatric urologists at a comprehensive, freestanding, newly built Children's Hospital with an established teaching focus, including an accredited Urology Residency, and a newly developed Pediatric Urology fellowship program. The preferred candidate will have certification in Urology from the Royal College of Physicians and Surgeons of Canada (or equivalent) and have successfully completed an accredited fellowship in Pediatric Urology. Demonstrated expertise and/or a proven record of accomplishment in teaching, research, robotic/MIS Urological surgeries and pediatric renal transplantation are required. Advanced training in clinical or basic research, surgical education or quality improvement is desirable. There is an expectation of commitment to the teaching of undergraduate students, residents and fellows. Participation in outreach activities, telehealth, a multidisciplinary spinal cord clinic and transition care is required. The on call rota will be 1 in 4.

Candidates must be eligible for licensure by the College of Physicians and Surgeons of BC. Candidates must also be eligible for appointment to the Department of Urologic Sciences, University of British Columbia.

Remuneration and academic rank will be commensurate with qualifications and experience.

Applications must include a cover letter describing previous academic experience and training, an up to date curriculum vitae, and a surgical case log documenting the candidate's most recent 12 months of activity. The names, ranks and contact information of three referees should also be directed to:

Andrew E MacNeily MD FRCS FAAP
Professor and Head, Division of Pediatric Urology
Ko-134 BCCH, 4480 Oak Street
Vancouver BC Canada
V6H3V4
amacneily@cw.bc.ca

This application will remain open until the position has been filled.
