

Earis D, et al. The impact of a multidisciplinary small renal mass clinic on patient treatment decisions

APPENDIX

Small Renal Mass Clinic Patient Satisfaction Survey

We are interested to know about your experience at our Small Renal Mass Clinic (SRMC). We are committed to providing quality care and hope to learn about your experience so we can continue to improve. We also intend to use the information gathered for research purposes. The purpose of the research is to evaluate the level of satisfaction in our clinic model.

If you choose not to complete the survey or participate, it will not affect your medical care or relationships with your medical team. If you choose to participate you may withdraw at any time, without providing a reason. It is possible that some data may have already been pooled and/or aggregated at the time of withdrawal and therefore it may not be possible to have your information removed. By completing the survey and providing it to the research team, your consent is implied.

This survey should take approximately 5 minutes to complete. All responses will remain anonymous and confidential. Thank you for your time and feedback.

An online version is also available at: <https://www.surveymonkey.ca/r/SUASRMC>
