

APPENDIX B

ID # _____

Station 6: Suprapubic (SP) Catheter

Instructions (2 pages)

71-year-old male with AUR secondary to bladder neck contracture. You are unable to advance Foley catheter past contracture under direct vision. You elect for a SP catheter placement. Informed consent has been obtained. Please demonstrate a SP catheter placement on the model provided.

Prompts: None

Questions: None

ITEM	Not done, Incorrect	Done, Correct
1. Sterile technique	0	1
2. Appropriate landmark	0	1
3. Use of local anesthetic	0	1
4. Needle aspiration of urine to confirm bladder placement	0	1
5. Insufflate SP catheter balloon	0	1

MAXIMUM TOTAL SCORE

/5

Please circle the number corresponding to the candidate's performance regardless of the candidate's level of training.

Knowledge of specific procedural steps

Understands steps of procedure, potential risks, and means to avoid/overcome them

1

2

3

4

5

"I had to do"- requires complete hands on guidance

"I had to prompt them from time to time"- demonstrates some independence but requires intermittent direction

"I did not need to be there" complete independence, understands risks and performs safely, practice ready

Technical Performance

Efficiently performs steps avoiding pitfalls and respecting soft tissues, and proper equipment handling

1

2

3

4

5

"I had to do"- requires complete hands on guidance

"I had to prompt them from time to time"- demonstrates some independence but requires intermittent direction

"I did not need to be there" complete independence, understands risks and performs safely, practice ready

Visuospatial Skills

3D spatial orientation and able to position instruments/hardware where intended

1

2

3

4

5

"I had to do"- requires complete hands on guidance

"I had to prompt them from time to time"-

"I did not need to be there" complete independence,

demonstrates some
independence but
requires intermittent
direction

understands risks and
performs safely, practice
ready

Efficiency and flow

Obvious planned course of procedure with economy of movement and flow

1

2

3

4

5

"I had to do" - requires
complete hands on guidance

**"I had to prompt them
from time to time"** -
demonstrates some
independence but
requires intermittent
direction

"I did not need to be there"
complete independence,
understands risks and
performs safely, practice
ready

Entrustment

1

2

3

4

5

Requires complete
supervision/guidance

Requires some
supervision/prompting

Requires no supervision, ready
for independent practice

Overall Performance

1

2

3

4

5

Demonstrated no
competence; requires extra
support

Demonstrated some
competence; remains in
training

Demonstrated complete
competence; ready for
independent practice
