

McGill

University Functional Urology Position in Montreal

The McGill University Division of Urology is seeking to recruit a urologist with expertise in functional urology to join the team at the Jewish General Hospital in Montreal. Candidate would join a renowned and performing team of two functional urologists with access to top-notch equipment, residents, fellows, and supportive nursing team. University position available.

Candidate must be fellowship trained in Functional Urology or Female Pelvic Medicine and Reconstructive Surgery, with research experience. Fluency in French or the ability to acquire it is necessary. Very competitive salary.
