

Assistant/Associate/ Full Professor - Academic Urologist

The Department of Surgery, Division of Urology at St. Michael's Hospital, in conjunction with the University of Toronto, Division of Urology, is accepting applications from well-qualified applicants for the post of Academic Urologist. The effective date of the appointment is tentatively planned for summer of 2024.

The successful candidate must be eligible for Royal College certification in urology or equivalent and qualify for licensure with the College of Physicians and Surgeons of Ontario. The successful candidate will have completed fellowship training in Endourology, Laparoscopic, and Robotic Surgery. Expertise in renal transplantation is a requirement.

The candidate will be expected to demonstrate experience and training in the surgical and medical management of urolithiasis and endourology, advanced laparoscopic and robotic-assisted urologic surgery, renal transplantation, and endoscopic prostate enucleation, at a level appropriate for an academic tertiary care referral centre.

Excellence in clinical care, record of academic achievement, commitment to teaching and mentorship, and life-long learning are pre-requisites. A demonstrated record of professionalism and collaboration is required and a key feature of the Department of Surgery.

The successful candidate will contribute to the academic mandate of the Hospital and University through scholarship, research, education, and creative professional activity. We seek a Surgeon-Investigator, who will contribute in meaningful and tangible ways to the academic impact Division of Urology and Department of Surgery at Michael's Hospital and the University of Toronto. The candidate must be eligible for appointment at the rank of Assistant Professor or higher in the Department of Surgery, Temerty Faculty of Medicine.

The successful candidate will possess graduate-level training or be enrolled in a graduate-level training program that will enhance scientific enquiry in any of: public health, health services, translational or basic science research, clinical epidemiology surgical education, global surgery, or quality improvement. An academic interest and expertise in artificial intelligence research would be considered an asset.

St. Michael's Hospital is a fully affiliated teaching hospital with the University of Toronto, and a Level 1 trauma centre located in downtown Toronto, providing primary, secondary, and tertiary care services for Toronto, Ontario, and beyond. The Department of Surgery at St. Michael's Hospital, comprised of some 52 members across seven divisions, enjoys a proven track record in tertiary care surgical services, with clinical and academic strength across all its surgical sub-specialties. The Division of Urology at St. Michael's Hospital and the University of Toronto is a provincial referral centre for endourology and shock wave lithotripsy, and one of the largest renal transplantation programs in the country. The Division of Urology is comprised of a cohesive group of academic surgeons who engage in clinical, administrative, and translational research in collaboration with the Li Ka Shing Knowledge Institute, the Keenan Research Centre, the University of Toronto, and Ryerson University. The division is a magnet for learners and trainees of all types and at all levels.

The successful candidate will join the Division of Urology practice plan, with earnings based on fee-for-service billings and support from the hospital, division, and university. Estimated earnings are expected to be over \$300,000, commensurate with qualifications and experience. This estimate is based on fee-for-service billings.

Applications to include a letter of intent, *curriculum vitae*, and names of three references should be sent via email no later than December 31, 2023 to:
