

IN MEMORIAM

CUAJ honours its members and friends who have passed away. We invite colleagues of the deceased to submit brief remembrances. Please limit your notice to 200 words. Send your notice to journal@cua.org or fax it to 514-875-0205.

Dr. Edward John McGinn

Dr. McGinn died on January 16, 2007, at the age of 93. A native of Milwaukee, Wis., Dr. McGinn was a graduate of Marquette University Medical School (now called the Medical College of Wis.). For 42 years, Dr. McGinn practised urology in Marshfield, Wis., as well as in Alameda, Oakland, Hayward and Castro Valley. He was married to Elizabeth (Betty) Schaefer for 64 years and they had 6 children. He especially enjoyed visiting ancestral sites in Ireland. He was past president of the Medical Staff of Alameda Hospital and St. Rose's Hospital, Hayward, Calif.

Dr. Carl P. Dahlen

Dr. Dahlen died on February 27, 2007, at the age of 87. Dr. Dahlen was a retired urologist with Veterans Affairs. In 1945, he graduated from Boston University School of Medicine. Dr. Dahlen served in World War II and the Korean War. He also served as a urologist at the Long Beach, Calif., VA Medical Center and later at the VA Medical Center in Albany, NY, where he was chief of the urology service. He was associate clinical professor of surgery at Albany Medical College. Dr. Dahlen was a diplomat of the American Board of Urology, a fellow of the American College of Surgeons and chief of staff at the VA Medical Center in Clarksburg, WV, before his retirement in 1983. He is survived by his wife, Mary Lou (Taylor) Dahlen, his daughter, his son and his sister.

Dr. Harmuraru Dutta Tewari

Dr. Tewari died on April 29, 2007, at the age of 68, in Saint John, NB. Dr. Tewari was the youngest of 10 children. Among his 4 older brothers and 5 older sisters, he chose to follow in his father's footsteps and become a physician. Dr. Tewari was the first to introduce the central venous pressure monitoring system and directed the first jury rigged tubing system in New Brunswick. He was also the first to move kidneys to Halifax, NS for transplantation. He is survived by his son, daughter and wife. He is also cherished by many nieces and nephews as well as many more family members residing in India.

Dr. John K. Lattimer

Dr. Lattimer died on May 10, 2007, at the age of 92, after a long illness. A long-time resident of Englewood, Calif., he was a world-renowned urologist who treated presidents, movie stars and cultural icons. For 25 years, he was a professor and chair of the urology department at the College of Physicians and Surgeons of Columbia University. He was credited with helping to establish pediatric urology as a discipline and with developing a cure for renal tuberculosis. After serving as an army doctor in World War II, Dr. Lattimer became a ballistics expert. Dr. Lattimer was the first non-government medical specialist allowed to examine the evidence in US president John F. Kennedy's assassination. Dr. Lattimer collected military, medical and historical memorabilia all his life, including an unusual item of urological interest — Napoleon's penis. Dr. Lattimer is survived by his wife, Jamie, his daughter, his 2 sons (both academic urologists) and his grandchild.
