

## **APPENDIX: Survey**

---

### **Demographics**

1. **What is your gender? \***
    - Male
    - Female
    - Non-Binary
    - Do not disclose
  2. **What province are you based out of? \***
    - BC
    - AB
    - SK
    - MB
    - ON
    - PQ
    - NB
    - NS
    - NFLD
    - PEI
    - Other: \_\_\_\_\_
  3. **Do you have a primary academic or community practice? \***
    - Academic
    - Community
  4. **How far are you into practice? \***
    - 1-5 years
    - 5-10 years
    - 10-15 years
    - >15 years
  5. **Did you do further training in prosthesis surgery? \***
    - Yes
    - No
  6. **If yes, please clarify more (Fellowship, Prosthetics Workshop, Other):**
- 

### **Implant Volume and Type**

7. **How many implants do you do annually (average)? \***
  - <5
  - 5-10
  - 10-20
  - 20-30
  - 30-40

*Almuhanna et al. Practice patterns of Canadian penile prosthesis implanters: A survey-based analysis*

- 40-50
  - >50
8. **How many are inflatable per year (average)? \***
- <5
  - 5-10
  - 10-20
  - 20-30
  - 30-40
  - 40-50
  - >50
9. **How many malleable implants do you do annually (average)? \***
- <5
  - 5-10
  - 10-20
  - 20-30
  - 30-40
  - 40-50
  - >50
10. **What implant do you use? \***
- Boston only
  - Coloplast only
  - Both Boston and Coloplast
11. **If you use both products, what is your split? (e.g., 40% BSC/60% Coloplast)**
12. **If you use both products, how do you determine which one to use?**
13. **Does your institution have a cap for prosthesis volume annually? \***
- Yes
  - No
14. **If yes to the above, how many?**
- 

**Preoperative Practices**

15. **Do you do a pre-op scrub? \***
- Yes
  - No
16. **Do you check HbA1c for patients? \***
- Yes
  - No

17. Do you have a HbA1c cutoff? If yes, please write the value:

18. Do you get a urine culture prior to surgery? \*

- Yes
- No

19. Do you perform a duplex ultrasound prior to surgery? \*

- Yes
- No

20. Do you show patients a device in the office? \*

- Yes
- No

---

#### **Antibiotic Use**

21. For your standard IPP case, do you prescribe antibiotics before surgery? \*

- Yes
- No

22. If yes, what antibiotic(s) do you prescribe?

23. For your standard IPP case, what intravenous antibiotics do you give intraoperatively? \*

24. For your standard IPP case, do you use an antibiotic dip? If yes, specify (including product-specific details if applicable): \*

25. Do you use the same dip for both a Coloplast and BSC device? \*

- Yes
- No
- Other: \_\_\_\_\_

26. For your standard IPP case, do you give antibiotics post-op? \*

- Yes
- No

27. Any other pre-op regimen? (e.g., Hibiclens wash, etc.)

28. How do you counsel patients regarding length post-surgery?

---

## **Surgical Techniques**

**29. Do you primarily perform a penoscrotal or infrapubic approach? \***

- Penoscrotal
- Infrapubic

**30. If you perform a penoscrotal approach, do you perform a counter incision for the reservoir? \***

- Yes
- No

**31. If you perform both infrapubic and penoscrotal approaches, are there situations when you use one versus the other? (Explain) \***

**32. For your standard IPP case, do you place a catheter during surgery? If so, duration?\***

- Yes
- No

**33. Where do you place a reservoir in a patient with no prior surgery? \_\_\_\_\_**

**34. Where do you place a reservoir in a patient post-radical prostatectomy/cystectomy? \_\_\_\_\_**

**35. Where do you place a reservoir in a patient with bilateral inguinal hernias? \_\_\_\_\_**

**36. For your standard IPP case, do you insert a catheter? If so, duration? \* \_\_\_\_\_**

**37. For your standard IPP case, do you use an Ioban? \***

- Yes
- No

**38. For your standard IPP case, do you change gloves during the case? \***

- Yes
- No
- Other

**39. For your standard IPP case, do you place a drain? \*If yes, for how long? \_\_\_\_\_**

---

### **Postoperative Practices**

**40. For your standard IPP case, are patients discharged the same day or the next day? \***

- Same day
- Next day

**41. For your standard IPP case, do you leave the device partially inflated? \***

- Yes
- No

**42. For your standard IPP case, when do you see the patient post-op? \_\_\_\_\_**

**43. For your standard IPP case, when can someone start using the device? \_\_\_\_\_**

**44. What is needed in Canada for penile prosthesis education? \* \_\_\_\_\_**

(e.g., More simulation opportunities, patient materials, video content)
